Crash, two bets and payout calculation

Parameter	Meaning
Exact game developer	Aviator: public card code aviator / aviator, gameId 4830383031808965780 / aviator:Aviator. It differs from Aviamasters, where BGaming is indicated.
Betting window	In the confirmed crash episode, the acceptance window 6 s precedes the start of the flight. After the start, new bets are excluded until the next round.
Number of panels	Two confirmed panels of the same round share one multiplier curve and one crash moment; bets and cashout are accounted for separately.
First panel bet	Panel A: 2,00 PLN before the start of the round in the audited journal.
Second panel bet	Panel B: 3,00 PLN before the start of the same round.
Manual cashout	In the confirmed scenario, panel A is closed manually at 1,54× before the drop to 1,82×, payout 3,08 PLN.
Auto-cashout	On panel B the auto-close threshold is 2,00×. The round ended at 1,82×; panel B gave 0 PLN.
Auto bet	Both bets in the verified round were entered manually. The automatic cashout setting on panel B is different from automatically placing a bet.
Connection lost	In the event of a disconnect, the state should be verified against the server log of the closed round. In the confirmed scenario, both bets and the closing of A were received before the end, and there are no inconsistent repeat bets.
Round number	The internal number of the verified line CR-01 refers to the verified game episode; the public identifier of the provider operation exists separately in the real round log.
Full payout	Full payment of both panels 2,00 × 1,54 + 0 = 3,08 PLN.
Net result	Net result 3,08 − 2,00 − 3,00 = −1,92 PLN.
Result verification mechanism	To verify provably fair with the provided mechanics, the revealed seed and transformation rule are compared with the pre-hash and the round result.
Verification input data	Inputs for a reproducible check: round identifier, hash fixed before the game, revealed seed, additional seed/nonce per the specification, and the displayed multiplier.
Multiplier rounding	In the verified row, the coefficient 1,54 is applied as an accepted multiplier. The monetary payment is rounded after multiplication to 0,01 PLN; the rule for displaying the coefficient of the actual title is taken from its interface.

Fast-round games

Card	Provider by record / gameId	Source mode and parameter
Aviator	aviator / 4830383031808965780	Instant Win and Trending, external identifier aviator:Aviator
JetX	SmartSoft Gaming / 519810910803825863	Instant Win, 16:9, external identifier smartsoft:JetX
JetX3	SmartSoft Gaming / 519810910803825865	Instant Win, 16:9, external identifier smartsoft:JetX3
Crash Duel X	SmartSoft Gaming / 926807872204211457	Instant Win, external identifier smartsoft:CrashDuelX
CrashX Football Edition	Turbo Games / 518710910684879107	Instant Win, 16:9, external identifier turbogames:CrashXFootballEdition
Space XY	BGaming / 350640732159569027	Instant Win, external identifier bgmng:SpaceXY
Spaceman	Pragmatic Play Live / 814168231510391683	Instant Win, demo disabled, displayed limit 1–100 EUR in the original slice

In the two-panel calculation CR-01, bets 2,00 and 3,00 PLN belong to the same round. Manual exit of the first at 1,54× yields 3,08 PLN, while the automatic threshold 2,00× of the second is not reached before the drop to 1,82×. Total payout 3,08 PLN, net result −1,92 PLN. Aviamasters is a separate FUN episode with a different ID and mechanics, for which the saved game screen is used.

Crash and fast games — Main parameters

Parameter	Meaning
Crash game catalog	165 Quick Games cards in the total counter. Seven separate quick-round titles are listed in the comparison group with the original ID.
Games and providers	Aviator — aviator card; JetX, JetX3 and Crash Duel X — SmartSoft Gaming; CrashX Football Edition — Turbo Games; Space XY — BGaming; Spaceman — Pragmatic Play Live.
Round mechanics	In the verified episode CR-01, the multiplier goes up to 1,82×. One bet closes at 1,54×, the other's threshold of 2,00× is not reached.
Bid window	The verified episode CR-01 provides for bets in a six-second window before the start of the general round. The moment the round opens is determined by its server state.
Simultaneous bets	Two CR-01 positions are counted separately for a single drop moment. The client's exact capabilities are determined by the game interface of the selected title.
Manual cash out	In CR-01, manual cashout is accepted until the round ends; 2,00 PLN × 1,54 = 3,08 PLN of the full payout.
Auto cash out	In CR-01, the auto-lock threshold for the second panel is set to 2,00× before the start. A drop to 1,82× gives 0 PLN on this panel.
Rates and payments	For Spaceman, the EN/EUR card shows 1–100 EUR. In the verified episode CR-01, the total payout 3,08 PLN from bets 2,00 and 3,00 PLN, net result −1,92 PLN.
RTP at the operator	The card for a specific Aviator, gameId 4830383031808965780, contains raw rtp=61.84. The scenario result CR-01 is calculated from the accepted coefficients; the theoretical RTP requires configuration rules.
Demo and history	Aviamasters loaded in FUN with 1 000,00 FUN and a bet of 0,50 FUN. The saved material contains two frames of flight states, and the full history is checked in the log of the specific game/mode.
Bonuses and VIP points	Instant Win gives zero credit under the general §3.20. VIP metrics in the public EUR table — 1 WP per 5 EUR of eligible turnover; title eligibility is determined by the scoring rules.

Crash and fast games — Additional parameters

Parameter	Meaning
Partial cash out	In CR-01, the selected panel closes completely. A partial payout is calculated according to the title's interface rules, and the remaining position is marked separately if the feature is provided.
Auto-bid availability	Bets CR-01 were placed manually. The auto-close threshold for the second panel is set separately; there is no automatic re-bet in this record.
Differences between crash and instant	In crash, the outcome is tied to the moment the common multiplier stops, and the bet is closed by the cashout rule. Instant Win is a broader category and also includes rounds with a single result under the rules of the specific game.
Interrupted round	After a disconnection, the confirmed server decisions for ID of the round are checked. In CR-01, both bets and the manual closing of the first were accepted before the stop, and no duplicate charge occurs.
