Live casino and rules of a specific table

Parameter	Meaning
Table name	SPEED BLACKJACK 6 RUBY, gameId 229425954190428913, gpGameId 591.
Provider	Pragmatic Play Live / pragmatic live, a separate line of live games.
Format	Fast live blackjack with 16:9 card display and demo disabled according to the card data.
Dealer language	Language verification mode — comparison with the broadcast. A separate card Speed Blackjack Turkish 1 has the Turkish label, which must not be transferred to SPEED BLACKJACK 6 RUBY.
Schedule	A dynamic status of places in the observed snapshot is linked to the RUBY card; the shift schedule is set by the current broadcast itself.
Available seats	The saved EN/EUR snapshot shows 2/7 seats. This is a UI indicator at the moment of capture, with no promise of an available seat.
Bet Behind	Bet Behind refers to a separate bet on another player's hand accepted by the interface. In the example RUBY, no such bet is included in the payout calculation.
Minimum bet	On card RUBY in slice EN/EUR, the lower bound is 5 EUR.
Maximum bet	On the same card, the upper limit is 1 000 EUR. With an active bonus, a separate §3.6 sets the live limit of 10 EUR or 40 PLN for the corresponding currency.
Blackjack payout	If the table rule provides for 3:2, blackjack at 10 EUR yields 15 EUR profit and 25 EUR total payout, including the original stake.
Dealer rule	Under the stand on soft 17 condition, the dealer stands on A+6; under hit on soft 17, the dealer draws. The version of the condition applies to the selected table, not the genre.
Double and split	Doubling a confirmed bet 10 EUR means additional risk 10 EUR; splitting two hands by 10 EUR creates two separate entries if the pair rules allow a split.
Roulette wheel type	Live Roulette European Platipus is designated as a European wheel. In the confirmed example with a single zero, 37 sectors, and a bet of 2 EUR on the winning number at 35:1 gives 72 EUR of the full payout.
Commission in baccarat	With a separate confirmed Banker bet 10 EUR and a commission of 5% on profit, 19,50 EUR of the full payout is received on a successful outcome.
Special payment without commission	In the no-commission example on the specific payout rule 1:2, for a Banker win 6 a bet of 10 EUR returns 15 EUR in full. Application of the rule depends on the table actually selected.
Additional bet	Pair Side Bet is evaluated separately. In the confirmed example, 1 EUR at 11:1 gives 12 EUR of the full payout if the pair comes in, and 0 EUR on a loss.

Live tables and calculation rules

Card	Provider / gameId	Saved attribute
SPEED BLACKJACK 6 RUBY	Pragmatic Play Live / 229425954190428913	5–1 000 EUR, places 2/7 in the EN/EUR slice
VIP Blackjack 5	Imagine Live / 204009756798392808	Live blackjack card from Top, demo disabled
Lightning Roulette	Evolution / 6782906975141346253	Roulette and Game Shows, demo disabled
Live Roulette European	Platipus / 817823263244561954	Separate European version, demo disabled
PowerUp Roulette	Pragmatic Play Live / 807806532130625651	In the UI snapshot, the upper limit is 5 000 EUR; a zero lower-limit field does not mean a permissible zero bet
Speed Baccarat 2	Imagine Live / 204009756798390594	Live Baccarat, demo disabled
Sweet Bonanza CandyLand	Pragmatic Play Live / 703333701681250302	Game Show, upper limit 3 000 EUR in the UI slice, demo disabled
Crazy Time	Evolution / 6782906975538524644	Game Show and Top, demo disabled

Related calculation examples at a 10 EUR stake: blackjack 3:2 — 25 EUR of the full payout; Banker with a 5% commission on profit — 19,50 EUR; Banker 6 with a payout of 1:2 — 15 EUR. The amount on the selected table is determined by its own table and the fixed mode. For European roulette with a single zero, a straight hit on a number at a payout of 35:1 returns 72 EUR on a 2 EUR stake, including the stake.
