Promo code — Main parameters

Parameter	Meaning
Offer and status	The HighRoller Bonus is described in public §6. It is a separate repeat offer after the Welcome Package. The confirmed personal activation relates to Welcome.
Code requirement	For HighRoller, §6.2 requires entering a code before depositing. For Welcome under §4.9, the code does not apply.
Promo code	50HIGH — exact value from the public §6.2 for HighRoller Bonus.
Entering a promo code	Enter 50HIGH before the HighRoller deposit. Operator sequence — code before deposit confirmation.
Promotion availability	HighRoller is available every 7 days after using all Welcome Package bonuses. §6.5 excludes Finnish players; the PLN threshold is set in §6.1.
Promotion deposit	For HighRoller, PLN §6.1 sets a minimum of 1 500 PLN. This is a separate deposit threshold from 80 PLN of the welcome.
Payment methods	At HighRoller, a cash transaction permitted for the offer that is completed after entering the code is counted. The currency lists in §6.1 and the methods in the shared cashier describe different scopes.
Reward amount or type	HighRoller — cash bonus up to 2 500 PLN under §6.3, with ×35 on the bonus amount under §6.4.
Code validity period	HighRoller re-availability is stated with an interval of 7 days. The calendar end of a specific promotion is set by the active offer, so the interval is not interpreted as a code expiry date.
Accrual deadline and indicator	For HighRoller, the activation sequence is accepting the code before the deposit, then a qualifying credit. The sign of crediting is the appearance of a separate bonus balance; the actual automatic credit from the report relates to the first Welcome.
Stock compatibility	Per §6.4, HighRoller follows after using the Welcome Package. Per §3.14, one active bonus is available at a time.

Promo code — Additional parameters

Parameter	Meaning
Reason for refusal	Entering any code for the Welcome Package excludes receiving the welcome offer under §4.9; for HighRoller, entering after a deposit falls outside §6.2.
Activation period	For HighRoller, the code is activated at the pre-deposit step, and re-admission appears every 7 days after using Welcome. For Welcome, the period after accrual is 7 days.
Action on cancellation	If the bonus is declined before wagering, §3.13 retains its own balance. On early request, §3.12 deducts the bonus and the associated winnings.
Automatic activation	For Welcome PL, the first qualifying deposit from 80 PLN automatically triggers the credit under §4.9. The expert reported this on the first top-up.
