Tournaments, prize pools and points

Parameter	Meaning
Competition name	Network campaign Spinoleague Network Promotion 2026 (Spinomenal); separate campaigns BGaming Million Drops, Drops & Wins (Pragmatic Play) and a local Daily Bronze Tournament.
Period	Spinoleague 04.03.2026–01.03.2027 by calendar dates. BGaming 01.01.2026 00:00:00–31.12.2026 23:59:59 UTC or until exhausted; Drops & Wins 04.03.2026–03.03.2027.
Time zone	BGaming — UTC; weekly stage Drops & Wins — CET/CEST, Wednesday 19:01 until the following Wednesday 18:59. Spinoleague publishes calendar dates; game boundaries are taken from the specific stage's tool.
Opt-in required	Spinoleague — real-money play in an eligible round on a tournament instrument. BGaming — at least one spin in a participating game; this is a qualifying action. The Drops & Wins wheel opens after three parts.
Eligible game	BGaming: Aviamasters, Bone Bonanza, Book of Panda Megaways and the other items on the participation list. In Drops & Wins — slots with the campaign icon; Spinoleague — games listed in the specific round.
Minimum bet	BGaming states there is no minimum bet specifically for the promotion; the bets allowed by the game itself apply. Spinoleague uses the minimum per spin shown in each stage's tool.
Minimum coefficient	For the three specified casino campaigns, there is no sports odds requirement in qualification; the crediting item is a slot spin, a random drop or a win multiplier. For the sports Combo Boost, different thresholds are retained: the global setting 1,30 and the formal Betting Terms §8.2.5 — 1,50.
Credit for winning bets	In Spinoleague points, a winning real spin is awarded; with 0 EUR, payouts are 0 points. For BGaming, the condition for issuing a drop may trigger from an eligible bet regardless of the spin payout.
Points formula	Spinoleague: points per spin = gross win / bet in the same currency. A bet of 0,80 EUR and a win of 5,60 EUR give 7 points; the contribution accumulates over counted spins.
Point base currency	The prize grid and example account are kept in EUR. The win-to-stake ratio is dimensionless if both amounts are expressed in the same currency.
Rate fixation moment	In the comparison of results in a single account EUR, there is no exchange. For payment in another currency, the rate and time are taken from the settlement log of the specific reward; currencies of different grids are not summed.
Place from	For BGaming checksum verification, the first position of the group is €1 000 — 1. This is the ordinal numbering of output records by denomination, without leaderboard places.
Place to	Last checkpoint of the group €1 000 — 120 inclusive; the next denomination €500 starts at 121.
Number of seats in the range	First group: 120 − 1 + 1 = 120 prizes; seven groups in total give 77 054 prizes.
Prize for one participant	In the first BGaming group — €1 000 per prize. According to the campaign, a maximum of one random prize from the fund is allowed per qualifying bet.
Range amount	Group €1 000 — 120 × €1 000 = €120 000. The full calculation across seven denominations is provided in the campaign log.

Parameter	Meaning
General Fund	BGaming: €1 000 000 was claimed, the published grid adds up to €1 000 500; the difference is €500. The funds Spinoleague up to €12 000 000 and Drops & Wins €25 000 000 belong to separate campaigns.
Number of prize places	BGaming 120 + 144 + 1 200 + 1 990 + 7 400 + 22 000 + 44 200 = 77 054. Ordinal ranges without gaps 1–120, 121–264, 265–1 464, 1 465–3 454, 3 455–10 854, 10 855–32 854, 32 855–77 054.
Prize wagering	The prize condition is determined by the rules of the specific stage/reward type. In the confirmed cash drop scenario, 0× is set for the cash reward, the deposit bonus or FS are counted separately; the total wagering BetOnRed on the fund is not carried over.
Prize accrual period	The weekly window records the end of the stage; the actual crediting period of an individual reward is indicated by the bonus history entry or the stage calculation. The confirmed balance scenario uses only rewards already credited.
Points tie	Spinoleague when final points are equal, ranks higher the player who reached that value earlier.
Network campaign organizer	Spinomenal — organizer Spinoleague; BGaming — BGaming Million Drops; Pragmatic Play — Drops & Wins; BetOnRed — access showcase. betonredopinie.com — editorial project.
Parent campaign and stage	Drops & Wins: as part of the annual campaign there are seven daily tournaments and one parallel Weekly Wheel Drop each week; windows 19:01–18:59 CET/CEST.
Wheel parts and method of production	Weekly Wheel Drop — collect 3 parts while playing eligible slots, then unlock a guaranteed spin. Treasure Wheel BetOnRed uses 3 of deposit and is tracked separately.
Wheel reward type	Weekly Wheel Drop awards a prize from the network wheel, including a bet multiplier. Operator wheels separately feature Free Spins, a deposit bonus, a cash bonus, and a possible no-prize segment depending on the wheel type.
Number of rewards and multiplier	Three parts give one guaranteed Weekly Wheel Drop spin. Up to 100 000× is the top prize multiplier, and the number of spins after completing the wheel remains one.
Reward multiplier base	For the Weekly Wheel Drop prize multiplier, the base is the stake specified in the wheel's terms. With a stake of 0,50 EUR and a multiplier of 25×, the verified reward is 12,50 EUR.
Remaining stage fund	Confirmed BGaming snapshot: if from the advertising fund 1 000 000 EUR, 120 000 EUR payouts are accounted for, the remainder is 880 000 EUR; from the layout amount 1 000 500 EUR with the same payouts — 880 500 EUR. These are two calculation bases, the difference is 500 EUR.
Operator jackpot	At the BetOnRed level, jackpots are stated as a category; Jackpot Games may be excluded from wagering in the rules. An individual slot's jackpot and network campaign funds retain their own amounts, triggers, and organizers.

Prize campaigns and loyalty

Spinoleague from Spinomenal is valid from 04.03.2026 to 01.03.2027 with a stated maximum fund of €12 000 000. Each round has its own grid and minimum qualifying bet in the tournament instrument; only play with real funds counts. For example, a bet of 0,80 EUR with a gross win of 5,60 EUR gives 7 points, while a losing spin of 0,00 EUR gives 0 points. In the event of a tie, the player who reached the final number of points earlier has priority.

BGaming Million Drops has a random distribution. To verify the original grid, each payout is numbered by denomination. These are ordinal positions in the reconciliation, without assigning places to players.

Positions	Quantity	One prize, EUR	Group total, EUR
1–120	120	1 000	120 000
121–264	144	500	72 000
265–1 464	1 200	100	120 000
1 465–3 454	1 990	50	99 500
3 455–10 854	7 400	20	148 000
10 855–32 854	22 000	10	220 000
32 855–77 054	44 200	5	221 000
Total	77 054		1 000 500

The terms specify €1 000 000 and approximately 77 000 in awards. The difference between the grid and the stated fund is 500 EUR. In the paired evaluation of balances, the same 120 000 EUR of accounted payouts yield 880 000 EUR of the stated amount or 880 500 EUR of the grid amount. The campaign starts 01.01.2026 00:00 UTC, ends 31.12.2026 23:59:59 UTC or upon exhaustion of the fund. The entry condition is at least one spin in an eligible game; there is no overall minimum stake for the promotion in the terms.

Drops & Wins (Pragmatic Play) from 04.03.2026 to 03.03.2027 declares €25 000 000 for the campaign. Wednesday 19:01 → next Wednesday 18:59 CET/CEST includes 7 daily tournaments and a separate Weekly Wheel Drop. Three parts from participating slots unlock one guaranteed spin; 100 000× denotes the top bet multiplier. For example, a 25× reward from 0,50 EUR equals 12,50 EUR. The operator's Treasure Wheel grants access after three deposits; FS, the deposit bonus and the cash bonus are each counted in their own category.

Gold 2 in the EUR profile starts at 30 000 WP and 1 500 DP. At a 100% wagering contribution, this is 150 000 EUR of turnover and 15 000 EUR of counted deposits, converted from the rules of 1 WP for 5 EUR and 1 DP for 10 EUR. After a month of inactivity at levels with Gold 2, progress between adjacent tiers decreases by 25% every 7 days. If 4 000 WP has been accumulated in this interval, after the first decrease 3 000 WP remains; 2 500 EUR of counted wagers stop the reduction for Gold 2. Points Rakeback is credited every two weeks on Fridays in the current visible description. The answer FAQ with a different frequency and percentages refers to separate terms preserved in the source.
